From April 14th to 18th, I had the joy of working on Cru's first in-person conference in over a year! Last month I asked you to pray for our upcoming Campus Ministry Summit. This conference is unlikely any other our team typically works on. Summit is a conference specifically for the ministry partners of Cru's campus ministry. My role as the Hotel Liaison meant that I helped with everything from choosing the menus to organizing all of our meeting room reservations. This year we held the Summit at the beautiful Ritz Carlton hotel in Orlando, Florida!

During the weekend, guests heard stories of changed lives, the ways God is calling Cru to reach even more people for the gospel, and were invited to partner financially with Cru. Many of our guests said that this was the best Summit they had been to in years! They were heartbroken by the challenges facing college students today and empowered to partner with Cru in reaching the next generation currently on college campuses around the world.

We saw God provide nearly \$2 million over the weekend to help further the gospel!

I left the conference even more pumped for what God is doing in the lives of college students, especially this summer. This summer I have the pleasure of staffing one of Cru's stateside summer missions in Jackson Hole, Wyoming! I'm excited to share with you all how God uses our time to encourage students and equip them to be leaders back on their college campuses. Last month you heard how the summer I spent in Miami as a college student changed my life and I'm confident the same will happen to students in Jackson Hole.

On a personal note, this past weekend (April 24th) my family pulled off maybe one of our best surprises. My parents and I were able to fly to Texas and surprise my grandfather (Bapa) for his birthday! If that wasn't great enough, my Bapa rededicated his life to Christ and was baptized the next day at church! This was a complete surprise to the whole family and such a joyous moment to share together. We don't always get to see our Texas
